

PRASTUTI SRIVASTAVA

+91 9569624324 | prastutisrivastava19@gmail.com | [LinkedIn](#) | [GitHub](#) | Lucknow, Uttar Pradesh

SUMMARY

Second-year B.Tech Computer Science student with a strong foundation in software engineering, data structures & algorithms, and object-oriented programming. Built a live full-stack social-impact platform (Sahayak AI, deployed on Netlify), developed multiple web applications, and actively contributing to an ISRO Bharatiya Antariksh Hackathon project. Passionate about solving real-world problems through technology while continuously expanding technical expertise.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science and Engineering <i>BBD Northern India Institute of Technology (BBD NIIT), Lucknow, UP CGPA: 8.61 / 10</i>	Aug 2024 – May 2028 (Expected)
XII (CBSE) — Red Rose Senior Secondary School 85.83%	2022 – 2023
X (CBSE) — Red Rose Senior Secondary School 96.67%	2020 – 2021

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+), SQL, C
Web Development: HTML5, CSS3, React.js, Node.js (Basics), Express.js (Basics), Streamlit
Core CS: Data Structures and Algorithms (DSA), OOP, Operating Systems
Database: MySQL, Firebase
Tools: Git, GitHub, VS Code, Netlify, Vercel

EXPERIENCE

Frontend Development Intern (CodeAlpha) <i>CodeAlpha — Lucknow, Uttar Pradesh</i>	July 2026 - Present
- Engineered 3+ responsive web applications using HTML5, CSS3, and JavaScript, improving cross-browser UI consistency and user-navigation flow. - Worked on real-world project submissions while strengthening practical development skills.	

PROJECTS

Sahayak AI — Social Impact Platform [MAJOR PROJECT] Live Demo / github.com/prastutisrivastava19-bit/SAHAYAK-AI <i>Role: Frontend and Database Engineer (Team of 4) Technologies: HTML5, CSS3, JavaScript (ES6+), Firebase, REST APIs, Netlify</i>
- Developed a live full-stack social-impact platform connecting people in need with volunteers and NGOs, contributing to frontend development, database integration, and responsive user interface design - Implemented role-based access, a live needs map with real-time help-request tracking, urgency filtering, volunteer-to-request matching logic, and user-friendly dashboards.
College Event Management System github.com/prastutisrivastava19-bit/College-Event-Management-System <i>Technologies: Streamlit, Python, SQLite</i>
- Developed a web-based event management platform for managing registrations and event details. - Designed responsive user interfaces and integrated database functionality for efficient data management
Personal Portfolio Website Live Demo / github.com/prastutisrivastava19-bit/MY_PORTFOLIO <i>Technologies: React.js, CSS, Vercel</i>
- Designed and developed a responsive portfolio website showcasing projects, skills, certifications, and contact information. - Implemented smooth navigation responsive layouts, and modern UI components
ISRO Bharatiya Antariksh Hackathon 2026 — Cloud Removal for Satellite Imagery (In Progress) <i>Team: Squadra Pixel Technologies: Python, Google Colab, LaMa/SimpleLama, Streamlit</i>
- Designing a six-stage pipeline — acquisition (Bhoonidhi LISS-IV imagery), preprocessing, cloud-mask generation, AI-based reconstruction, evaluation, and Streamlit dashboard deployment. - Building a generative-AI reconstruction model with an evaluation framework to quantify output quality against baseline metrics.

ACHIEVEMENTS & EXTRACURRICULAR

- Google Solution Challenge 2026 — Developed Sahayak AI, a social-impact platform addressing real-world community needs - Green Ideathon, IIT BHU — Proposed Hydro-Sync Orchestrator, an AI-based water optimization system for data centers, competing against teams from premier engineering institutions. - Generative AI Hackathon — collaborated on the development of AI-powered Mental Health Chatbot using modern AI tools. - Active problem solver on LeetCode and GeeksforGeeks, regularly practicing Data Structures and Algorithms to strengthen problem-solving skills.
